**POTATO TYPES** 

**POTATO CHIPS** 

FROZEN

**POTATOES** 

DEHYDRATED

POTATOES

REFRIGERATED

**POTATOES** 

**DELI-**

PREPARED

STDES

CANNED POTATOES

|      |   | SIDES  |
|------|---|--|
| ТҮРЕ | USE   | SUBSTITUTION   |
|      | Available in various textures,<br>chips are typically used as a<br>snack or side.                         | Choose a chip in a similar texture with similar oils and flavors.  |
| (A)  | Available in seven types,<br>consumers use fresh potatoes<br>for both a side or main dish.                | Refer to the fresh potato virtual shopper guide for recommendations.   |
| **   | Available in various forms,<br>frozen potatoes are used for<br>both a side or main dish.                  | Choose another option in a similar shape or form.  |
| ß    | Typically used as a quick<br>option for cooking for families,<br>individuals, or traveling.               | Find a form and flavor similar to the original that the consumer ordered or a refrigerated potato option.  |
|      | Typically a quick and easy<br>option for busy individuals.<br>Available in the deli or dairy<br>sections. | Choose another flavor within the<br>dehydrated potato section. If dehydrated<br>potatoes are unavailable, choose another<br>shelf stable option. |
| ß    | Typically a quick and easy<br>option for dinner for a<br>household or an easy lunch.                      | Look for prepackaged items in the same section. If not available, check the center store aisles for similar options.                             |
|      | Typically used for pantry<br>stocking and easy preparation<br>while cooking.                              | Dehydrated potatoes offer a similar shelf<br>life and storage capabilities.  |
